The Shuttle Carriage

on a Burroughs is something entirely new. For instance, if you have two columns of figures you want to carry, some are in one column and some are in others, you put in your sum, pull the handle, and it prints in the first column; then it automatically carries the paper over to the next column and you print in that. You pull the handle and it automatically sends the carriage back to the first

You may say that you have no use for such a ma-

How do you know?

Have you ever gone into your departments and found how much of that kind of work you are doing? If you have, just put a stop watch on that sort of work for half an hour, and then have an adding machine brought 'n and you will probably find out you could save 75 per cent of the time. Time is what you are pay-

ing for when you hire clerks. Burroughs Adding Machine Company
